R03-03-017 - Order Instituting Rulemaking on the Commission's own motion to re-examine the underlying issues involved in the submetering discount for mobile home parks and to stay D01-08-040.

I03-03-018, C00-01-017 - Related matters. This interim decision adopts the unopposed joint recommendation of seven of the parties. The joint recommendation identifies the categories of costs the electric and natural gas utilities incur when directly serving mobile home park (MHP) tenants that are avoided by the utilities when the MHP is served through a distribution system owned by the MHP owner (sub-metered MHP). These categories of costs are to be used in determining the amount of the discount provided by the utility to the sub-metered MHP owner as reimbursement for the cost of providing sub-metered service. The joint recommendation also identifies categories of costs that are either not incurred by the utility when it directly serves MHP tenants, or are not reflected in utility rates for direct service, but are incurred by sub-metered MHP owners, and may be separately charged to tenants if not otherwise prohibited.

[3003]

I01-08-029 - Order Instituting Investigation into Southern California Edison Company's electric line construction, operation, and maintenance practices. Southern California Edison Company (Edison), Respondent.

This decision fines Edison a total of \$576,000, primarily for 25 violations of the Commission's General Order (GO) 95 and GO 128 specifying the requirements for the construction, operation, and maintenance of overhead and underground utility systems. The decision fines Edison \$20,000 for each of these 25 violations that have a nexus with an accident involving death, injury, or property damage. It also fines Edison \$1,000 for each of 56 violations of GO 165 for failure to identify unsafe conditions and \$20,000 for one violation for exceeding GO 165's inspection intervals. This decision also grants the intervention of the California Cable and Telecommunications Association (CCTA), Pacific Gas and Electric Company (PG&E), and San Diego Gas & Electric Company (SDG&E). It also considers and rejects the appeals to the presiding officer's decision of Edison, the Commission's Consumer Protection and Safety Division, CCTA, P&GE, and SDG&E. This proceeding is closed.

ALTERNATE TO ITEM 3003

PROPOSED ORDER OF COMMISSIONER KENNEDY DIFFERENT FROM PRESIDING OFFICER'S DECISION - This decision fines Edison a total of \$676,000 primarily for 30 violations of GOs 95 and 128 in which the record establishes that Edison either knew or should have known of the violation. It also fines Edison \$1,000 for each of 56 violations of GO 165 for Edison's failure to identify unsafe conditions, and \$20,000 for exceeding GO 165's inspection intervals. This decision does not fine Edison for 4,721 observed violations of the GOs that Edison remedied promptly once the Commission's Consumer Protection and Safety Division (CPSD) brought the violations to Edison's attention. The decision differs from the POD in two major respects. It bases Edison's liability under GOs 95 and 128 on its failure to correct violations of which it had either actual or constructive knowledge. The POD bases Edison's liability under those GOs on the finding of a "nexus" between violations and personal injuries or deaths. Second, the decision authorizes CPSD to issue notices to a utility with a direction to cure an observed violation within a reasonable time. If the utility cures the violation within the stated time period, it will be not fined for the violation. The POD treats all violations as automatically triggering fines that the Commission may, in its discretion, choose to suspend.

ALTERNATE TO ITEM 3268

This alternate differs from the Proposed Decision in 3 ways, none of which affect the revenue requirement:

1. It modifies Section 5.5 Service Guarantees to adopt ORA's proposed 8-part service standard.
2. It modifies Section 6.2.7 Employee Compensation Issues to point out weaknesses in the current Total Compensation Study methodology, order SCE to develop a new study for the next GRC, and adopt Greenlining's proposal to require SCE to annually report to the Commission on total compensation to its ten most highly-compensated employees.
3. It modifies Section 13.2 The Case for Performance Incentives. CCUE had proposed benchmarks and incentives. SCE and CCUE then reached a settlement adopting modified benchmarks and incentives. The PD rejects both, stating that incentives are inconsistent with Cost of Service ratemaking. The alternate adopts CCUE's proposal.

There are changed Findings, Conclusions and Ordering Paragraphs to match these text changes. In all other respects, the drafts are the same.

A03-05-039 - Professional Balloon Pilots Association of Napa County, Inc., et al. (hot air balloon operators).

P03-05-040 - Related matters. In these two proceedings, hot air balloon operators in California sought action by the Commission for relief from insurance requirements of General Order (GO) 120-C. Interim Decision D03-07-047 issued on July 22, 2003, provided a Modified Interim Plan intended to enable balloon operators to obtain insurance that complied with California law. Today's decision, following hearings ordered by the Commission, responds to the petition to amend GO 120-C and replaces the Modified Interim Plan authorized in D03-07-047. The Commission concludes that insurance complying with GO 120-C has now become available to balloon operators and, therefore, major revision of GO 120-C is unnecessary. Nevertheless, based on the evidence at hearing, the Commission makes permanent some of the relief put forward in D03-07-047 and adopts a recommendation by staff regarding insurance for property damage and injury to persons on the ground. The revisions to GO 120-C are intended to encourage other insurers to provide coverage to this important tourist-oriented industry. These proceedings are closed.

 [3357] Application for Rehearing and related Motion by SCE to file certain confidential materials under seal. Disposition of Application of Rehearing of Resolution E-3814, filed by The Utility Reform Network (TURN.) In this Resolution, the Commission approved Southern California Edison's (SCE) Advice Letter Filing 1680-E, which sought approval of the TrueSolar PPA and a new 5 MW central station solar photovoltaic facility to be constructed and operated by TrueSolar. Also disposes of related motion filed by SCE seeking confidential treatment of portions of the Response of SCE to TURN's application for rehearing.

 [3447] A95-06-002, A96-10-038, A02-12-027, A02-12-028 - Related matters. Disposes of the application for rehearing of D04-01-007 filed by San Diego Gas & Electric Company (SDG&E) and Southern California Gas Company (SoCalGas). D04-01-007 granted with modification SDG&E's and SoCalGas' petition for modification of D01-10-030, which deferred SDG&E's and SoCalGas' cost of service and Performance Based Ratemaking applications for one year and based them on a 2004 test year.
